

Closing Meigs Field was an incredibly arrogant and stupid act done by the Chicago mayor as a step toward building a Gambling Casino. 70% of the Chicago citizens surveyed disapprove to say nothing of the aviation community. This is one case where "Roaring 20's" Chicago "Politics as Usual" should not be allowed to happen. The FAA should NOT revoke the Class D airspace because the field has saved lives. The Federal Government should take over Meigs Field under their authority to invoke "Eminent Domain" and keep the airport open for the safety, protection, and well-being of the entire area.
